Raian Ibn Faiz

Senior Software Engineer

raianibnfaiz@gmail.com | +8801703371469 | Github | LinkedIn | Portfolio | Mohammadpur, Dhaka

Career Objective

Software Engineer with 3.5+ years of experience in full-stack and cross-platform development. Passionate about tackling challenging problems in web and mobile development to exhibit and enhance skills and creativity across scalable, user-friendly applications.

Professional Experience

Senior Software Engineer, BJIT Limited Jul 2026 – Present
Dhaka, Bangladesh

– Took ownership of developing a React/TypeScript application integrated with Power Apps/Power Platform and Dataverse.

Software Engineer, BJIT Limited Mar 2023 – Present
Dhaka, Bangladesh

– Contributed to full-stack development across mobile (Android/Flutter), web (React), and backend (Node.js/Express) platforms.
– Delivered 6+ production projects spanning IoT platforms, real-time chat apps, safety systems, and location-based services.
– Conducted requirement analysis, UI implementation, testing & debugging, code reviews, and documentation.
– Collaborated in Agile teams managing the complete feature lifecycle across multiple platforms simultaneously.

Trainee Software Engineer, BJIT Academy Nov 2022 – Feb 2023
Dhaka, Bangladesh

– Completed intensive Youth Skill Development Training focused on Android application development.
– Developed foundational skills in mobile and web technologies within a structured training program.

Project History

Valmet IBS System Apr 2026 – Oct 2026
Tech: React/TypeScript, Material UI (MUI v5), TanStack Query, Microsoft Dataverse

– Industrial asset management platform on Power Apps Code Apps/Power Platform with Dataverse.

Sociofuture Foreigner Assistant App Oct 2025 – Feb 2026
Tech: React, TypeScript, WebSocket, OpenAPI, Android (Kotlin)

– Real-time chat for Android WebView with room-based messaging, mentions, and unread tracking.
– Built-in language translation for seamless multilingual team communication with smart timestamps.

BJIT IoT Cloud Platform Mar 2025 – Sep 2025
Tech: React JS, Node JS, Tailwind CSS, MongoDB, Socket.IO, MQTT, Firebase, Arduino

– End-to-end IoT platform for real-time device management, visualization, and code generation.
– Implemented full-stack features including backend APIs and reactive frontend dashboard.

NAES USA PoC – Worker Safety IoT App Jun 2024 – Aug 2024
Tech: Embedded IoT, React JS, Node JS, MQTT

– IoT application to track worker locations and detect/alert on hazardous situations.
– Handled circuit design, system integration, testing, and documentation.

Jasmy Labo – Travel Navigation App Sep 2023 – Mar 2024
Tech: Android (Kotlin), Google Maps, Augmented Reality (AR)

– Native Android app to explore, navigate, and discover travel experiences with AR features.
– Responsible for UI implementation, data modeling, database design, and code review.

Sharjah University – Type DM Android App Mar 2023 – Aug 2023
Tech: Android (Kotlin), RoomDB, FCM
– Collected children's behavioral data based on lifestyle and food habits with AI-driven suggestions.
– Implemented monthly data insert feature with push notifications; conducted code reviews.

News App Jan 2023
Tech: Kotlin, Retrofit, Room Database
– Android app fetching live news via API with bookmark functionality and live web page navigation.

Bicycle Warehouse Management Jun 2022
Tech: React JS, MongoDB, Express JS, Firebase, Tailwind CSS
– MERN stack app where users can add, view, update, and delete their own warehouse products.

Camera Manufacturer Store Website Jul 2022 – Aug 2022
Tech: React JS, MongoDB, Express JS, Firebase, JWT, Stripe
– Full-featured e-commerce MERN application with admin dashboard, JWT auth, and Stripe payments.

Technical Skills

Languages: JavaScript (ES6+), TypeScript, Kotlin (Android), Dart (Flutter)
Frontend: React JS, Tailwind CSS, Daisy UI, Shadcn UI, Redux / Redux Toolkit, HTML5, CSS3, Microsoft Power Apps Code Apps
Backend: Node JS, Express JS, REST API, JWT Auth, Microsoft Dataverse
Mobile: Android (Kotlin), Flutter, Room Database, Retrofit, FCM
Database: MongoDB, Firebase, SQLite, Room DB
Tools & Others: Git, Jira, Redmine, MQTT, Socket.IO, Google Maps API

Education

Bachelor of Science in Computer Science, Brac University 2015 – 2019
Dhaka, Bangladesh

Higher Secondary Certificate (HSC) – Science, Dhaka Residential Model College 2011 – 2013
Dhaka, Bangladesh

Secondary School Certificate (SSC) – Science, Dhaka Residential Model College 2009 – 2011
Dhaka, Bangladesh
